

Callback

Hosted White Label Solutions for VoIP Service Providers

Callback Solutions for VoIP Service Providers

Telinta's cloud-based white label solution enables you to run a profitable VoIP Callback business. What makes our solution unique is the ability for your customers to trigger a Callback session via a variety of methods or devices. Users quickly receive an inbound call with customizable IVR prompting them to place an outbound call using your VoIP services. With Telinta's Callback solution, you and your resellers can provide customers with the economy of VoIP calling, together with the flexibility of using a variety of devices to trigger a session. Callback can be offered as a stand-alone service, or bundled together with any of your other VoIP services.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities. With Telinta's highly-customizable white label solutions, you and your resellers can offer a full range of services in addition to Callback, all under your own brand.
