Desktop Softphone
Hosted White Label Solutions for VoIP Service Providers

Brandable Desktop Softphone for both Windows and Mac

Telinta offers an impressive Desktop Softphone application for VoIP service providers. This brandable softphone can easily be downloaded by your users to their Windows and Mac computers for both inbound and outbound calls. An icon on their desktop opens an attractive softphone application, brandable and customizable for you and your resellers. No browsers are required. All your user needs is a broadband internet connection, speakers or headset, and a microphone.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities. With Telinta's highly-customizable white label solutions, you and your resellers can offer a full range of services in addition to Desktop Softphone, all under your own brand.

Cloud-based, rapid deployment, with no capital investment
