

# TeliClick™

**Hosted White Label Solutions for VoIP Service Providers**

## Offer Click-to-Call Services to your Business Customers

TeliClick™ is our unique white label Click-to-Call solution, connecting your business customer's website visitors with live agents. Website visitors simply click on a customizable icon embedded into the website and are immediately connected to one of your customer's sales or service agents, without leaving the webpage. Website visitors can be connected directly to an agent via WebRTC using their web browser to place a voice call, without needing a mobile or fixed line phone. Website visitors can also be connected via an immediate callback by entering their phone number into an online field.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities. With Telinta's highly-customizable white label solutions, you and your resellers can offer a full range of services in addition to TeliClick, all under your own brand.

**Cloud-based, rapid deployment,  
no capital investment**

**Best-of-breed  
Click-to-Call technology**

**Easy to incorporate  
into your website**
